HealthCert EDUCATION

PRIMARY CERTIFICATE OF

IMMUNISATION & VACCINATION

ONLINE

The Primary Certificate of Immunisation & Vaccination equips medical practitioners with an understanding of the use of vaccines to induce immunity in children, adults and travellers, and against Covid-19, with a focus on vaccine effectiveness, limitations and side effects.

Delivered by leading experts in the field, the online course explores appropriate vaccine strategies for children and adults (with application to patient cases), as well as the implications of the Covid-19 vaccine for GP practice. You will also learn how to develop an immunisation schedule for travellers, including how to determine travellers' individual risk to common illnesses.

The course will enable you to safely provide immunisations and vaccinations in your practice based on an evidence-based strategy to improve patient outcomes, centred on a step-wise approach.

TOPICS COVERED

- Childhood vaccination
- Adult vaccination
- Travel immunisation schedules

COURSE DELIVERY AND REQUIREMENTS

This course consists of three online modules and is for physicians and degree-qualified health professionals. There are no prerequisites.

FEES	Primary Certificate	$495

CERTIFICATION

Upon successful completion of the course, you will receive a HealthCert certificate and accredited CPD hours. Please refer to our website for details.
