

## ADVANCED WORKSHOP OF **NON-SCALPEL VASECTOMY**

**ONE-DAY SATURDAY WORKSHOP**

Performing non-scalpel vasectomy procedures in your practice will help you increase your revenue, reduce and make you a favourable referral option for your peers.

The **Advanced Workshop of Non-Scalpel Vasectomy** provides an introduction to this advanced procedure for permanent male fertility control. The workshop is ideal for experienced doctors who regularly perform advanced clinical procedures or who already provide traditional vasectomies but would like to learn the non-scalpel procedure.

The only program of its kind, this Advanced Workshop offers a comprehensive overview of the necessary steps to achieve the best outcomes for your patients, with the opportunity to practise the procedure on simulated models and enable you to seriously consider it for your practice.

### TOPICS COVERED

- Determining the correct steps in the process of non-scalpel vasectomy procedures
- Recognising the safety rules to avoid complications in non-scalpel vasectomy procedures
- Determining the necessary equipment for non-scalpel vasectomy procedures
- Planning patient counselling
- Analysing patient case scenarios

### WORKSHOP DELIVERY AND REQUIREMENTS

The practical one-day workshop is delivered on Saturdays. Online assessment in the form of multiple choice questions will take place after the workshop. The workshop is suitable for general practitioners and International Medical Graduates and assumes previous experience in clinical procedures.

“The course taught me interesting and useful new skills. It was an excellent start to learning about vasectomy procedures. The discussion about the cases was fascinating. Raj was informative and explained things clearly.

- Dr S. McDonald, VIC -

## PRESENTER

### Dr Raj Selvarajan | Scalpel Free Vasectomy Clinics

Dr Raj Selvarajan is a Fellow of the Royal Australian College of General Practitioners, a Member of the Royal College of General Practitioners, and a Member of the Royal College of Surgeons of Edinburgh. Following his training in non-scalpel vasectomy, Dr Selvarajan established No Scalpel Vasectomy Service in north-eastern England in 2007. He subsequently led a non-profit social enterprise organisation, NECHN, and set up non-scalpel vasectomy clinics in Tamworth, Midlands, UK and Leicester City, UK. As an experienced vasectomist, Dr Selvarajan peer-reviewed other non-scalpel vasectomy services in the UK. Specialising and innovating the scalpel free vasectomy technique, he is the lead trainer in Australia and operates Scalpel Free Vasectomy clinics in Brisbane and Mackay.

## THE WORKSHOP INCLUDES

A one-day workshop including presentations and demonstrations from an expert in the field followed by practical hands-on application using medical-grade models.

You will also receive unlimited and ongoing access to free alumni learning resources, video lectures, and discussion forums, as well as invite-only events and special offers after completing the workshop.

## CERTIFICATION

Upon successful completion of the workshop, you will receive a HealthCert certificate and accredited CPD hours. Please refer to our website for details.

## FURTHER STUDIES

Upon successful completion of the Advanced Workshop, HealthCert recommends further clinical training for doctors without prior experience in the field, to ensure patient safety and for medico-legal purposes. Advanced Workshop graduates may also be interested in extending their skills in other highly sought-after clinical procedures such as female contraception, joint injections, local anaesthetic approaches, post-operative care, and various suturing and surgical techniques. Recommended follow-on certificate courses and workshops include:

- Professional Certificate of Clinical Procedures
- Advanced Workshop of Intrauterine Systems

## WORKSHOP DATES AND LOCATIONS

**Workshops available throughout the year in Sydney, Melbourne, and Brisbane. Please refer to our website for details.**

## FEES AND PAYMENT OPTIONS

**\$2095**

Further savings available for GP Registrars.
