

MEDICAL CERTIFICATE OF DERMOSCOPY FOR DERMATOLOGY

ONLINE

Gain advanced knowledge in dermoscopy for the diagnosis and management of various skin conditions commonly encountered in primary care.

Dermatology accounts for 16 per cent of general practice presentations, and skin conditions are a major source of morbidity. This online Medical Certificate explores the use of dermoscopy for obtaining clinical diagnoses for conditions of the skin, nails, hair and scalp; differentiating between common dermatoses; assessing the effectiveness of applied treatments; diagnosing common inflammatory disorders; and interpreting dermoscopic findings in patients with skin of colour. Delivered by the world's leading experts in dermoscopy and dermatology, this advanced course requires practitioners to have previous exposure to dermoscopy prior to enrolment.

TOPICS COVERED

- Basic principles of applying dermatoscopy in inflammatory skin diseases
- Common inflammatory dermatoses of the face and trunk
- Basic principles of trichoscopy
- Dermoscopy in skin of colour

COURSE DELIVERY AND REQUIREMENTS

This course consists of four online modules and is for physicians and degree-qualified health professionals. It assumes previous knowledge and experience of dermoscopy. The HealthCert Professional Certificate of Dermoscopy (or similar qualification) provides this knowledge.

FEES

**Medical
Certificate****\$445**

CERTIFICATION

Upon successful completion of the course, you will receive a HealthCert certificate and accredited CPD hours. Please refer to our website for details.
